

Langston & Co's Coach Machine Works, Station Park (1901) Eglington is on the far right of the photograph. The sign on the building says that the company were 'cart and wagon builders', 'vanish, wheelwrights and carpenters'. Photograph probably taken around 1912.

**EGLINGTON & BEAVER**

1901 not always on the 9th Eglington is seen in a shop outside the Cobble Shop. Photograph probably from the 1930s.

**Nothing changes!**  
 The advertisements on these boards were published as a booklet by the businesses of Reepham around 1925. You will see from the introduction that 90 years later the problem of keeping customers shopping locally has not changed!

**SHOPPING.**  
 The trouble of high prices, especially in all matters, tends to be the same thing in the retail trade as it is in the wholesale trade. The fact that the consumer is unable to find the goods he wants at the prices he is willing to pay is the result of the fact that the producer is unable to find the goods he wants at the prices he is willing to pay. This is the result of the fact that the producer is unable to find the goods he wants at the prices he is willing to pay. This is the result of the fact that the producer is unable to find the goods he wants at the prices he is willing to pay.
